

Capital Appeal Success

You Helped us to raise £2.37 million!

In 2006, we launched a Capital Appeal to raise the £2.37 million needed to build a 15 bedded inpatient unit as an extension to our existing building.

The people of Merseyside responded, donations, grants and equipment flooded into the Capital Appeal office and on June 6th 2009, Woodlands' Inpatient unit began accepting its first patients.

We owe a debt of gratitude and thanks to many many people, some of whom are listed below and some of whom wished their support to remain anonymous. Thank you, Thank you, Thank you from all the patients - past, present and future, who will benefit from these overwhelming acts of generosity!

"I can only describe Woodlands as like having a security blanket – everyone makes you feel very special, part of a family" Woodlands Patient
